Art Unit: 2673

## Allowable Subject Matter

1. Claims 1, 5, 7-8 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The present invention relates to a liquid crystal display device for performing color display that is used in a color television, a personal computer or the like, and to particularly a liquid crystal display device for providing three primary color display by time-sharing and providing full color display by mixing the three primary colors without using any color filter. Independent claim 1 identified the uniquely distinct feature: "a circuit for determining a maximum among minimum levels of brightness of all pixels in a frame and multiplying the minimum levels of each pixel by a constant to create a display signal in the white field, the constant being determined by the maximum and a weight factor of the white field relative to the primary color fields; and a circuit for modulating the brightness of primary color light sources in the white field according to the constant, wherein the constant is automatically set depending on chances of displayed information." The closest art, APA, Kunzman and Agulnek et al. as discussed in the Office Action on 01.10.05 disclose related display, either singularly or in combination fail to anticipate or render the above underlined limitation obvious.

Claims 5 and 7-8 depend on claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Telephone inquire

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Leonid Shapiro whose telephone number is 571-272-7683. The

examiner can normally be reached on 8 a.m. to 5 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Bipin Shalwala can be reached on 571-272-7681. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
